TECHNICKÝ LIST

Article code: 045.10040223-C

technical details of material:

Tensile strength	3530 MPa
Tensile modules	230 GPa
Elongation	1,5 %
Density	1,76 g/cm³
Material	Plastic sizing material (Carbon)

technical details of article:

Width, stretched	18 mm
Wall thickness,	0,23mm
Threads	100
Filaments, stretched	6,9
Diameter	11 – 55 mm
Weight per 100m	2,016 kg

We declare, that supply will be done as declared on confirmation.

All statements for measures +/- 10 %.
