TECHNICKÝ LIST

Article code:	010.4815136-S
----------------------	---------------

technical data of material:

Tensile strength	3400 MPa
Tensile modulus	73 GPa
Elongation at break	2,2 – 2,5 %
Density	2,6 g/cm ³
Linear density	136 tex
Material	E-Glass with plastic

technical data of article:

Width, flat	6,0 mm
Wall thickness, single	0,25 mm
Threads	48
Filaments, stretched	15
Diameter for use	4 – 11 mm
Weight per 100m	0,690 kg
Weight per m²	0,297kg

We declare that supply will accord to regulation of order.

All measurements including tolerance +/- 10 %.
